Adarsh Alex

1326 Apt#266 The Alameda, San Jose, California 95126

adarshlx@gmail.com • (937) 716-9252 • LinkedIn • Webpage • Github

OBJECTIVE

Seeking to leverage my experience and skills in Software Engineering and Machine Learning to develop scalable applications.

EDUCATION

Wright State University, Dayton, Ohio, USA

Master of Science (M.S.) in Computer Science   Aug 2013 – Jul 2016
- Research areas: Exploiting knowledge encoded in Knowledge Graphs to enhance Text Mining, Natural Language Processing and Applied Machine Learning
- Thesis: Detecting and Classifying Implicit Entity Mentions in Tweets
- Advisor: Dr. Amit P. Sheth

Mumbai University, Mumbai, Maharashtra, India

Bachelor of Engineering (B.E.) in Computer Engineering   Aug 2009 – May 2013

SKILLS

- **Programming Languages**: Java, Java EE, Python, C++, C, Scala, Ruby
- **Databases**: SQL, PL/SQL(Oracle), MySQL, MongoDb, ElasticSearch, Neo4j.
- **Web Services**: JAX-WS Web Service, Restful Web Service (REST)
- **Big Data Technologies**: Apache Hadoop(Mapreduce), Apache Storm.
- **Web Technologies**: HTML, CSS, Javascript, React.js, Node.js.
- **Tools and Software**: Apache Tomcat, NLTK, Stanford CoreNLP, Gensim, OpenNLP, Weka, scikit-learn, word2vec, git, svn.
- **Operating Systems**: Linux (Debian, Ubuntu), Windows, Mac.

EXPERIENCE

Kno.e.sis Center, Wright State University

Graduate Research Assistant, Computer Science Department   Aug 2014 – Jul 2016
- Identifying and linking Implicit Entity Mentions in Tweets and Electronic Medical Records (EMR) using background knowledge.
- Leveraged machine learning techniques for filtering out noisy tweets in real time.

ezDI, LLC, Ahmedabad, Gujarat, India

Research Intern   May 2014 – Aug 2014
- Explored and developed approaches for automatic knowledge acquisition from Electronic Medical Records to enhance knowledge graphs using semantic techniques and domain knowledge.

PROJECTS

Detecting and Classifying Implicit Entities in Tweets   Mar 2015 – Jul 2016
- Developed a solution that leverages background knowledge from crowd-sourced knowledge bases like Wikipedia and DBpedia to identify implicit entity mentions in unstructured text (Tweets) in real time.

Forecasting Property Prices   May 2015 – Jul 2015
- Developed a multi-variate linear regression model using gradient descent algorithm to predict housing prices.

Recognizing Handwritten Digits   May 2015 – Jul 2015
- Developed a three layer feed-forward neural network to recognize handwritten digits.

White Board Project   Jan 2015 – Mar 2015
- Designed and implemented a white board using Java RMI where multiple clients can collaborate on simultaneously.

Real Time Tweet Filtering   Aug 2014 – Dec 2014
- Implemented an analysis pipeline engine for streaming data (Tweets) using Twitter Streaming API, Apache Storm and Mongo DB.
- Also developed a framework for real time noise filtering and feedback learning using Apache Storm and Weka.

Knowledge Acquisition from EMR Documents   May 2014 – Aug 2014
- Designed and implemented a centralized web application for gleaning meaningful relationships from Electronic Medical Records, using the J2EE framework.
